

## THE ENHANCEMENTS

We can custom blend coloured powders or gel to create any colour of tip or nail-bed that you require or maybe you'd prefer something a little more special such as 'encased nail art', where anything from holographic disks & dried flowers through to crushed shells & sliced ice glitter are worked into the clear acrylic of the nail.

We can provide both fully sculptured enhancements and tip & overlay and are trained to look for contra-indications to see if there is anything wrong with your nails like diseases or bacterial infections.

## THE TREATMENT ROOM

We have a private treatment room for such services as **waxing, spray tanning** - performed by this region's spray tanning trainer and **electrolysis** via a visiting beautician. We are also able to offer home spray tanning for that added bit of comfort.

## THE SHOP

We retail a large range of top quality nail products including CND Nail Enamel, and Jessica Nail Treatments and Polishes. Everything you need to keep those nails looking neat at home, in-between appointments.
